

JAS. B. MCCREARY OPENS CAMPAIGN

For Parker and Davis in County
--Makes Fair, Strong Argument
For His Party.

SOME OTHER POLITICAL NEWS.

Hardinsburg, Sept. 27.—(Special.)—Senator James B. McCreary, of Richmond, spoke for Parker and Davis, at the courthouse, Saturday, to an audience of about 300 persons. He was presented in an appropriate introductory speech by Judge N. McC. Mercer.

The Senator spoke about an hour and a half, making a fair and strong argument, free for abuse and vituperation. He first reviewed the national conventions; saying that the Republican convention was cut and dried, run by one man, but that the Democratic convention was the most democratic convention he ever saw, and that the delegates themselves settled every question that came up for consideration. He praised highly Judge Parker's gold telegram, and said it evinced his courage and principles. He discussed the claim of the Republicans that they had brought about prosperity, and stated that the praise for the prosperous condition of the country was attributable to God.

In speaking of reciprocity treaty was negotiated in 1850, under President Pierce, with Canada. That the Republicans had only made one such treaty—that with Cuba—and that they had been forced to do that. On the question of the treaty, he said it had been the policy of the Republicans to foster them, and argued that the only remedy was tariff revision, which he heartily favored.

A portion of his speech was devoted to the personality of the president, who, he said, is an egotist, overbearing and dictatorial, contrasting these characteristics with the judicial temperament of Judge Parker. He discussed the negro question in this connection quite at length, stating that the president's policy had again raised sectional animosity and hatred, which was being rapidly allied by the policy of the southern states.

Toward the close of his speech the Senator discussed what he claimed to be a new question in American politics, that of retaliatory tariffs. He stated that France, Germany and Russia had enacted retaliatory laws, against the United States in particular, and that it would have the effect of lessening the export of our surplus products to these countries. He also referred to the attempt of Joseph Chamberlain to revise the free trade policy of England, and enact a tariff law there.

In referring to State politics, he said that the Democrats ought to rule Kentucky, since they cast two-thirds of the white vote and own two-thirds of all the property. He said that on the indictment against Taylor, for complicity in the murder of Goebel, was already written the verdict, "Guilty," and that there was a hangman's noose prepared for him at Frankfort.

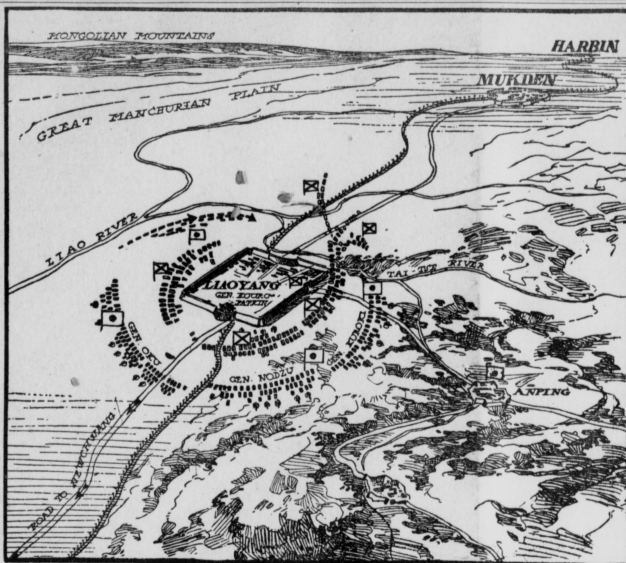

The Senator's reference to William Jennings Bryan evoked the most vigorous applause occurring during the whole course of his speech, showing that the Nebraska still holds the affections of the voters.

Not more than 300 people heard the speech, which seems to clearly indicate that, generally speaking, the voters are not taking much interest in politics this year.

ARE AFTER MOORMAN.

Hardinsburg, Ky., Sept. 27.—(Special.)—Senator Gus Richardson, of Guston, was here Saturday to hear the speech of Senator McCreary and to meet with the politicians of the county. He says he is in the race to succeed himself as State Senator, and that he will win. It is stated that he favors a primary as the method to select the nominee.

So far as the entries now stand, there are only two candidates, Richardson and Owen. It is reported that pressure is being brought to be on the Hon. D. C. Moorman to become a candidate. It is also said that a promise has been made from Hancock will also enter the field. If all these respective candidates should announce, it would make a strenuous race and no one could predict the outcome.

MAP SHOWING HOW THE JAPANESE ENCOMPASSED THE ARMY OF KUROPATKIN AND CAUSED IT TO RETREAT TOWARD HARBIN.

The map will show at a glance the positions occupied by the Japanese and the Russians near Liaoyang at what was generally regarded as the crucial moment of the Manchurian campaign. Had Kuropatkin been able to hold Liaoyang sufficiently long to get reinforcements from Harbin he could have cut Kuroki's army in two. Oku being later defeated, Nodzu would also have fallen an easy victim. But the Japanese had provided against such a contingency. While their three generals were menacing the city from the semicircle formed about it, Kuroki, detaching a considerable force, crossed the Tai-tai river, and throwing Kuropatkin's flank almost into Liaoyang, forced that commander, in order to avoid being entirely surrounded, to make a hurried retreat to the railroad, whence he proceeded to the northeast toward Harbin, via Mukden.

Public Policy the Burden of the Judge's Letter
of Acceptance.

REVIEWS MANY STATE PROBLEMS

Panama Canal, the Filipinos, Tariff Reform,
Pensions and Governmental Expenditures
Among the Themes Discussed.

Esopus, N. Y., Sept. 26.—Tariff reform, imperialism, economical administration and honesty in the public service are held to be the leading issues of the campaign. These and other problems of state are discussed at length in the Judge's letter accepting the Democratic nomination for the presidency. The communication is addressed to Hon. Champ Clark, chairman of the notification committee.

At the outset Judge Parker discusses what he terms imperialism, saying: "If we would retain our liberties and constitutional rights unimpaired we can not permit or tolerate at any time or for any purpose the arrogation of unconstitutional powers by the executive branch of our government. Already the national government has become centralized beyond any point contemplated or imagined by the founders of the constitution. How tremendously all this has added to the power of the president! The issue of imperialism which has been thrust upon the country involves a decision whether the law of the land or rule of individual caprice shall govern."

There is urgent need at the present time, holds the Judge, for tariff reform. He says the Dingley tariff is excessive in many of its rates, and unjustly and oppressively burdens the people, and continues: "It secures to domestic manufacturers, singly or in combination, the privilege of exacting excessive prices at home and prices far above the level of sales made regularly by them abroad with profit, thus giving a bounty to foreigners at the expense of our own people. Its unjust taxation burdens the people generally, forcing them to pay excessive prices for food, fuel, clothing and other necessities of life. Such duties have been and will continue to be a direct incentive to the formation of huge industrial combinations, which, secure from foreign competition, are enabled to stifle domestic competition and practically monopolize home market."

Of the trust question, Judge Parker says: "I pointed out in my earlier response the remedy which, in my judgment, can effectively be applied against monopolies, and the assurance was then given that if existing laws, including both statute and common law, proved inadequate, contrary to my expectations, I favor such further legislation within constitutional limitations as will best promote and safeguard the interests of all the people."

Reciprocal trade treaties between the United States and the world's great nations are urged, the Judge stating these would inure to the benefit of both the manufacturer and consumer. The method by which the administration acquired the Panama canal route is held to be a source of regret, but the construction of the waterway, he remarks, should be promptly completed.

Against Entangling Alliances.

Under the caption, foreign relations, the Judge observes: "The recent American invasion of foreign markets in all parts of the world has excited the serious apprehension of all the great industrial peoples. It is essential, therefore, more than ever, to adhere strictly to the traditional policy of the country as formulated by its first president, and never, in my judgment, wisely departed from—to invite friendly relations with all nations while avoiding entangling alliances with any. Such a policy means the cultivation of peace instead of the glorification of war, and the minding of our own business in lieu of the spectacular intermeddling with the affairs of other nations."

Judge Parker favors doing for the Filipinos what we have already done for the Cubans, adding: "I favor making the promise [of independence] to them now that we shall take such action as soon as they are reasonably prepared for it. It will tend to stimulate the surviving heroes of civil war."

Liberal pensions are favored for surviving soldiers and sailors of the civil war, but the writer avers that the national Democratic platform denies the right of the executive to usurp the power of congress to legislate on the subject. If elected president Mr. Parker says he will revoke pension order No. 78, and adds: "But I go further and say that, that being done, I will contribute my effort toward the enactment of laws to be passed by both houses of congress and approved by the executive that will give an age pension without reference to disability to surviving heroes of civil war."

The Judge contends that, as the governmental expenditures of the last fiscal year amounted to \$582,000,000, a thorough investigation of the public service and the immediate abandonment of extravagant expenditures are necessary.

He concludes: "Shall economy of administration be demanded or shall extravagance be encouraged? Shall the wrongdoer be brought to bay by the people, or must justice wait upon political oligarchy? Shall our government stand for equal opportunity or for special privilege? Shall it remain a government of law or become one of individual caprice? Shall we cling to the rule of the people, or shall we embrace beneficent despotism?"

Indianapolis Gets It.

Boston, Sept. 23.—Indianapolis, Ind., was selected as the meeting place of next year's convention of the supreme council, Ancient and Accepted Scottish Rite Freemasons, at the closing session of the annual meeting here. The report of the trustees presented by General S. C. Lawrence showed invested funds of \$222,000.

Prince Albert's Fast Mile.

Allentown, Pa., Sept. 24.—Before a crowd of 10,000 persons Prince Albert established a new half-mile track record by pacing a mile in 2:03 1/2 without a wind shield at the Allentown fair races. He made the same time at Bethlehem, Pa., on Sept. 19 last year, but a wind shield was then used to achieve it.

One For Hardinsburg Next Year—
Fine Silk Quilt—Other News
of the County Seat.

Will of the Late Frederick Walter,
who Died Aug. 25, Pro-
bated Monday.

Hardinsburg, Ky., Sept. 27.—(Special.)—C. V. Robertson has purchased of S. A. Pate the old fair grounds, lying near town on the pike. It is his intention to organize and incorporate a fair company and hold an annual fair here in the fall of the year. Many of the best business men of the county have heartily approved of the project and agreed to subscribe stock in the enterprise. Mr. Robertson is very enthusiastic about the matter and says the project will be put through, and a fair held next year.

QUILT BRINGS \$100.

Hardinsburg, Ky., Sept. 27.—(Special.)—The congregation of the Fairview church have presented their pastor, the Rev. W. H. Calvert, with a silk quilt valued at \$40. About \$100 was realized from it as all the persons whose names appear on it paid the church \$1.00. Miss Nettie Tucker wrote to the President for a contribution and he sent her one dollar and the name, Theodore Roosevelt, is the most prominent one that appears on the quilt. The Rev. and Mrs. Calvert prize their possession very highly.

ACCEPTS CALL.

Hardinsburg, Ky., Sept. 27.—(Special.)—The Rev. Everett English, of Stephensport, has accepted the call from the Baptist church at this place to become its pastor. He preached two excellent sermons to large congregations from that pulpit Sunday.

WILL PROBATED.

Hardinsburg, Ky., Sept. 27.—(Special.)—The will of A. R. Morris was probated in the county court Monday. His two sons, Charles and John, were appointed and qualified as executors.

GAME WARDEN.

Hardinsburg, Ky., Sept. 27.—(Special.)—J. H. Lennon, of this place, has been appointed game warden of the county.

BREAKS ARM AT 87.

John K. Johnson, aged 87, who lives on Patterson's hill, about two miles from town, fell out of a chair on to the floor at his home last Wednesday and broke his left arm at the shoulder. The member was set by Dr. Lightfoot and Mr. Johnson is now getting along nicely, despite his age. Mr. Johnson "is one of the oldest settlers of the county."

For a man of his age he possesses a remarkably strong constitution.

SHED FELL ON THEM.

Patesville, Ky., Sept. 27.—(Special.)—Late Saturday afternoon, while conversing under a barn shed, at their home, H. F. Achra and Port Marlowe barely escaped being killed. The shed under which they were standing suddenly gave way without any warning and came tumbling down upon them. By the aid of friends they were helped out, and neither received any injuries.

DEATH AT LAHANT.

Lahant, Ky., Sept. 27.—(Special.)—Mrs. Peter Styles died Friday at the age of seventy-eight. The interment was in the Union Star cemetery Saturday. A son and a daughter survive.

The will of Frederick Walter, of this city, who died August 25, was probated in county court at Hardinsburg Monday. The will is dated April 2, 1883. To the Methodist church of this city is left \$1,000, only the interest on this amount to be used, beginning two years after death of the deceased. To Mrs. Eliza Holt the house and lot where she lived is bequeathed, with exception of piano, also \$6,000, only interest to be paid her. The above goes to her children at death, if without children, to Mrs. Chas. Mary Sr. As Mrs. Holt is dead and died childless this part of the estate reverts to Mrs. May.

Elizabeth Saur is given \$4,000, by the will, which is held in trust, the interest only to be paid her. At the death the whole amount goes to her child.

Mattie Saur is provided for by \$2,000. Chas. Saur is given \$2,000, interest on same to be paid him until he is thirty years of age.

For John Saur \$2,500 is held in trust, the interest to be paid him annually and at his death it is to go to Mattie Saur. To Louis Saur is bequeathed \$2,000, with the same provisions.

The balance of the estate goes to Mrs. Chas. May, Sr., sister of the deceased. At her death it is to be divided among her three sons, Chas., Walter and David. If all have attained the age of twenty-five, if her two daughters, Eva and Eliza, marry they are to receive equal portions of the estate.

W. G. Smart and A. B. Skillman are appointed as executors. The latter qualified as executor Monday.

DR. R. P. KEENE.

The dentist, representing Taylor, Keene & Taylor, of Owensboro, will be at Dr. F. L. Lightfoot's office, October 10, to remain one week, for the practice of dentistry. Beginning in November, Dr. Keene will be at Dr. Lightfoot's office on the first Monday in each month, to remain one week.

TROUBLE OVER TRIFLE.

Henry May and John Farber were involved in a difficulty over some trifling matter at Pace's tobacco factory Sunday. Farber, it is said, cursed May, who knocked him down. The trial will probably come up in police court some time this week. No arrests were made.

BRILLIANT RECORD.

Camelton is making the most brilliant record in baseball circles of any town its size in this section of the country. This season it has defeated the teams of Owensboro, Evansville and smaller towns, and, last Sunday, defeated the Pattons, considered the second best amateur team in Louisville, by a score of 12 to 0.

No More Panics When Wheat Is \$1.
Corn 60 Cents, etc., Says
Up-To-Date Farming.

Up-To-Date Farming, official organ of the American Society of Equity, says:

"It had not been for the A. S. of E. and Up-To-Date Farming the 1903 crops would have sold as follows: Wheat, 75c to 80c; corn, 35c to 40c; oats, 25c to 30c. This society and its official paper have done more for American farming than any other factors that have been present for many years. Some of our admiring friends even give them credit for warding off a panic which was scheduled for 1903. Who knows! True it is, that they brought better prices for farm crops, and panics cannot breed in soil that grows \$1.00 wheat, 60c corn, 40c oats, 12c cotton, etc."

Following are several paragraphs containing news and comment of interest to farmers which are clipped from the current number of Up-To-Date Farming:

"It is probable that the money realized by the producers for the farm crops this year will aggregate a greater sum than for any other season's crops. Farmers, is this not what Up-To-Date Farming has been contending for? Is there any other paper in the country that has made such an effort to improve your prices? Are there not many that hooted at the idea? Or, don't you believe farmers have had any influence on prices? Do you think they just happened, like 'Topsy'?"

If so, what does it mean that farmers are stacking their grain, building granaries and holding their crops off the market? What does it mean that the elevator and warehouse are groaning, not from fullness, but from emptiness? Why don't the farmers dump their grain now like they did only two years ago and before, and let the other fellows hold it? We ask you these questions and will let you answer them, because there can be only one answer, and we know you will answer correctly."

"Many millions of bushels of wheat were marketed this year on the basis of \$1.00 per bushel by farmers who were not members of the A. S. of E. before they heard of the union farmers' price, \$1.30. It is a penny wise and pound foolish policy to stand aloof from the only movement that ever taught a practical way to get equitable prices and has never failed to benefit its members. It does seem that every farmer in the country would embrace the very first opportunity to belong to such an organization. They will as soon as

GENERAL KUROPATKIN, RUSSIA'S MILITARY COMMANDER.

General Kuropatkin, who commands Russia's land forces in Manchuria, is a man who has risen to his present high position without the aid of anything aside from his real or imagined ability, and it is therefore a surprise to his country that he has made such a poor showing against the Japanese. Indeed, Kuropatkin has not won a victory in any engagement which could be dignified by the word "battle." Aside from Viceroy Alexeeff he is today the most discredited man taking an active part in the war in the east. He has done little else than "fall back," and his "masterly retreats," as they are dignified in the official dispatches from St. Petersburg, have invariably turned out to be either routs or something very closely akin.

they understand it, and the quickest way to get wise is to read the official paper."

"Kentucky and North Dakota are manifesting the greatest activity just now, with Michigan and Minnesota following vigorously. Skepticism as to the ability of farmers to do things is at a discount and growing beautifully less."

"Farmers are holding wheat for higher prices." We see this in nearly every paper we read. There can be only one result. They will get the highest price, and no power on earth can prevent it."

THE CENTURY'S INDEX.

The Century Magazine has been trying the experiment of cutting the index from the last number of the volume, but it has announced that, beginning with the October number, which ends the current volume, the index will be restored. Many magazine publishers have

found that it is not necessary to print an index for the entire edition, but a small edition only has been printed, and copies have been sent to persons who desire to preserve their numbers in bound form. The publishers of The Century have found out that so many readers of that magazine bind the numbers that it has become necessary to include the index, as heretofore, in the entire edition.

TELLING TOO MUCH.

Washington, Sept. 21.—Because it is believed that foreign governments are learning entirely too much regarding the inside workings of the American navy, and are picking from the annual reports of the bureau chiefs too much information which should be of a confidential character, a change will be made this year in the preparation of the annual reports, and much that hitherto has been included in these papers will be omitted. It also has been decided to limit the unreviewed estimates of the bureau office.

GREAT CYCLING FEAT.

Albert Hunter, a truck cyclist of England, is able to accomplish great feats riding his wheel backward. Not long ago he made a run of four miles in twenty-two minutes riding hind wheel foremost. Although there were several steep hills on the way, Hunter never once dismounted, nor was he assisted in any way. He passed three carriages, a motor car and several wheelmen.

HATS TO BE EXTREME IN SIZE THIS WINTER.

Hats are certainly determined to know no middle ground this year. Either they are extremely large or they are little nats. For wedding occasions and for other extremely full dress events the tiny hat is worn. But it is seldom becoming and is laid aside for the more picturesque big hat. Picturesque is actually demanded of every woman, and the milliner of today seats her customer before a mirror and works upon her hat until it is perfect. There is no such thing as a ready-made hat these days. All hats are slightly altered until they suit the particular requirements of those who are going to wear them.

The round hats, with high, square crowns, are to be the hats of winter. If one can judge by the Paris advices; yet somehow, these hats are not quite as popular this side of the water as in Paris and London. The American fancy runs towards the softer effects. Yet it cannot be denied that the tall, square crowns are smart.

CAT AND PIG FIGHT.

Paris, France.—Wild cat and pig fights are the latest things in the way of sport at Lille, and these encounters are usually witnessed by hundreds of spectators of both sexes.

At an inn in which a cat and pig fight was going on the flooring fell through, carrying almost 100 people. Those who were not wounded by the broken timbers were badly cut by the glass of the broken bottles in the cellar into which they were precipitated.

The cage containing the animals was overturned, and the cat, springing upon several of the panic-stricken spectators, scratched and bit them numerously.

Several of the injured have since died.

From 148 to 92 Pounds.

One of the most remarkable cases of a cold, deep-seated on the lungs, causing pneumonia, is that of Mrs. Gertrude E. Fenner, Marion, Ind., who was entirely cured by the use of One Minute Cough Cure. She says: "The coughing and straining so weakened me that I ran down in weight from 148 to 92 pounds. I tried a number of remedies to no avail until I used One Minute Cough Cure. Four bottles of this wonderful remedy cured me entirely of the cough, strengthened my lungs and restored me to my normal weight, health and strength." Sold by All Druggists.

JEWISH POPULATION.

A Jewish year-book has just been issued for the period from September 10, 1904, to September 29, 1905. The Jewish year 5665, containing statistics showing that the Hebrew population of the world is now 10,953,777. Of this number Russia has 5,189,401; Austria Hungary, 2,076,878; and the United States, 1,253,218. Germany comes next, with 586,948, and then Turkey, with 466,351. Of the 600,000 Jews credited to the State of New York, about 500,000 are residents of New York City.

WEDNESDAY, September 28, 1904.

ANNOUNCEMENTS.

FOR COUNTY JUDGE.

We are authorized to announce Henry
Bellman as a candidate for
County Judge of Breckenridge county, subject
to the action of the Democratic party.

FOR STATE SENATOR.

We are authorized to announce R. W.
Owen, of Hancock county, a candidate
for State Senator from this, the 19th district,
composed of Breckenridge county, subject
to the action of the Democratic party.

FOR REPRESENTATIVE.

We are authorized to announce Selby H.
McCracken as a candidate for Representa-
tive from Breckenridge county, subject to
the action of the Democratic party.

If you have heart disease get mar-
ried. It is a sure cure.

Parker ought to send another gold
telegram. Maybe it would revive 'em
some more.

It is mighty hard to make a rousing
Democratic speech with one foot on
the Republican platform.

Dr. Milton Board looks just as big
as any of 'em around Democratic head-
quarters at Seelbach's. There is nothing
that succeeds like success.

Carrie Nation is going over to New
York to make a rail on Bishop Pot-
ter's subway tavern. Carrie is no
respector of persons in the saloon
business.

You had better look up the law on
the subject of registration if you live
in an incorporated town, or you
may not be able to help either Parker
or Roosevelt in November.

The two-story residence being erect-
ed on the lot at the corner of Main
and Second streets for J. C. Note by
the Cloverport Real Estate & Improve-
ment Company, is one of the hand-
somest built in Cloverport in recent
years. The residence is very artistic
from the architect's viewpoint. J. M.
Lewis is the contractor.

Men coming from the South say
that section is on the verge of the
biggest boom it has ever known, and
it had a pretty good boom from 1898
to 1902. Ten-cent cotton is working
wonders in the South. The Southern
steel mills are expecting that the next
few years will set them far ahead
of their previous high-water mark in
that industry.

A company is building a plant at
River Side Park, near Louisville, for
the manufacture of a cement to be
used for building material. The idea
is anything but new, and houses thus
constructed are not satisfactory, says
the Hawesville Plaindealer. The
Spaniards used a like material in the
building of their forts just after the
discovery of America. Two of them
are now standing near St. Augustine,
Florida.

The Democratic Campaign commit-
tee will have 1,500 speakers on the
stamp in Kentucky during the pres-
idential campaign this fall. Many of
the speakers will deliver a large num-
ber of speeches. The list includes Gov.
J. C. W. Beckham, Senators J. C. S.
Blackburn and James B. McCreary,
Ollie M. James, Swager Sherley,
Judge Matt O'Donerty, Col. Bennett
H. Young, Charles K. Wheeler, Lewis
McGowan, David H. Smith, South
Trimble, John R. Allen, Charles J.

Bronston, W. P. Kimball, H. V. Mc-
Chesney, J. G. Gilbert, James N.
Keeble, R. Peak, A. O. Star-
key, J. S. Morris, Morgan Chinn,
John L. Gray, John K. Hendrick,
F. A. Hopkins, George E. Stone and
W. T. Ellis.

There is a striking resemblance
between Senator McCreary and Judge
Milton Board. The Senator is not
near the speaker that Judge Board
was in his palmy days. He hasn't
lost the enthusiasm of Judge
Board. We remember the time
when the Judge used to fire the
Democrats with such enthusiasm that
they would shake that old court-
house from foundation to roof with
their Democratic yells. Senator Mc-
Creary is big a man politically as
he is didn't do it last Monday. What's
the cause of all this coolness and in-
difference? Has Democracy changed?
Is there no life in the old party? Has
it lost its moorings and strayed off to
strange climes and strange gods?
There is something wrong some-
where. Democracy is not what it
used to be.

DICK OWEN THE MAN.

"The leading Democrats of Union
Star are unanimous for Dick Owen for
Senator. They like him and many of
them all know him, and like him,
and have no reason for not supporting
him for the office."—Breckenridge
News.

And every place you go in the dis-
trict the people think well of Dick
Owen. They like him and many of
them all know him, and like him,
and have no reason for not supporting
him for the office."—Breckenridge
News.

The Breckenridge News says that
mosquitoes in Cloverport are using
can openers to make incisions in their
routines. They may have learned this
effective means of blood getting from
Federal office holders who are insert-
ing a sharp request for campaign
contributions into the quivering
employes.—Louisville Times.

This is the biggest one the Times
ever told. The News hasn't mention-
ed mosquitoes this summer, in fact
we've had no occasion to do so. They
haven't bothered us. We don't live
in a mosquito laundrette. The air is
too pure, our surroundings are clean,
pure and healthy and there's no at-
traction for mosquitoes. We don't see
can openers but can close them. If you
don't believe it just step down to our
canning factory. And, as to Federal
officeholders, we haven't but one in
town and he's the postmaster and a
loyal one, too. He pays his assen-
ments and never kicks. This is one
of the Times, misfit jokes.

Railroad managers' bank presidents
and business men generally are calculating
on continuance of the present prosper-
ous conditions because crops are
good and prices for farm crops are
good, with rising tendencies. Keep the
farmers prosperous and this country
cannot have hard times.

It matters not how expert farmers
become in producing grain, fruit or fat
stock, some new form of exploitation
will be discovered by the clever
people who live on their wits and pro-
duce nothing to relieve them of every-
thing but a bare living. They may
get ahead some years only to slip back
other years. This will be kept up until
they make their own prices.

Exhaustion of fertility in our farm
land is responsible for more crop failure
and short yields than farmers realize.
We believe this country will never take
its former enviable place as exporter of
grain until the average yields of our
grain crops are increased. The increas-
ing consumption of our own country
will come pretty near consuming all we
can produce. Better prices will soon
remedy this, however. We know many

farmers have only been waiting for the
time when the price of grain will war-
rant them in buying fertilizer.—Up-To-
Date Farming.

There is more Catarrh in this sec-
tion of the country than all other
diseases put together, and until the
last few years was supposed to be
incurable. For a great many years
doctors pronounced it a local disease
and prescribed local remedies, and by
constantly failing to cure with local
treatment, pronounced it incurable.
Science has proven catarrh to be a
constitutional disease and therefore
requires constitutional treatment.
Hall's Catarrh Cure, manufactured by
F. J. Cheney & Co., Toledo, Ohio, is
the only constitutional cure on the
market. It is taken internally in
doses from 10 drops to a teaspoonful.
It acts directly on the blood and mucous
surfaces of the system. They offer
one hundred dollars for any case it
fails to cure. Send for circulars and
testimonials. Address: F. J. CHENEY & CO., Toledo,
Ohio.

Sold by Druggists, 75c.
Take Hall's Family Pills for consti-
pation.

PICKED UP.

Senator McCreary is a great cam-
paigner, with the babies. He can kiss
and fondle them as gracefully as any
man you ever offered for office. It
will do one good to see him take a
little one his arms say some sweet
things to it, kiss it enthusiastically
and hand it back to its mother with a
smile. Of course this comes natural
with the Senator; he's been at it so
long.

There are a whole lot of Democrats
in Meade county who are going to
support Dick Owen for the Senate.
Gus thinks he has a walk-over in
his own county, and he is mistaken.

The Hon. D. H. Smith was at
Brandenburg last Monday. He did
not make a speech, simply there to
shake hands and joke with the boys.
Dave says this is his last race for Con-
gress. His next step is for the U. S.
Senate. If he fails in that he will
retire from politics. Dave doesn't get
any better looking, although Charlie
Bryant says he is the handsomest man
he ever saw. But when Charlie makes
a statement you are sure in saying it
is just the opposite.

Dr. Milton Board, of Hopkinsville,
was in Louisville last week. He had
been to Frankfort on business con-
nected with the Asylum. The Doctor
is looking fine and says he is getting
along nicely down at Hopkinsville,
that he likes the place and enjoys it.
"I am coming home to register, and
to vote is about all the part I will
take in the campaign this year." Said
he supposed the county would give a
small Republican majority, as it always
does when there is no fight made by
the Democrats. As to the national
campaign, he knew very little, he
would support Parker, of course, and
from the tone of his remarks we in-
ferred that he had very little hope
of his election. He said: "You say look
out for a hot campaign in Brecken-
ridge next year. I will be on the
ground and make it hot for the boys.
We must make a clean sweep next
year." He had very little to say about
the Senatorial race, said both candi-
dates were good friends of his and he
would take no active part in the cam-
paign. Dick Owen being from
his own county, he said he would
have to support him.

Vinol The New
Body Builder

As delicious as a Fresh Orange
Supersedes old-fashioned Cod Liver Oil and Emulsions

Guaranteed to contain all the medicinal elements, actually taken
from genuine fresh cods' livers, with organic iron and other
body-building ingredients, but no oil or grease, making the
greatest strength and flesh creator known to medicine. For
old people, puny children, weak, pale women, nursing
mothers, chronic cold, hacking coughs, throat and lung
troubles, incipient consumption—nothing equals Vinol.

Try It—if you don't like it we will return money.

SHORT & HAYNES, Druggists

THE WOMAN ON THE PEDESTAL.

In a recent number of Collier's Weekly, Richard Hard-
ing Davis gives a vivid description of the Yoshiwara of
Tokio, and pictures for us "The Ladies of the Golden
Screens," caged behind bars of iron like wild beasts. He
wonders "how a nation can advance as Japan is advancing
when its women hold so low and insecure a place."

"The American," he says "is used to placing his wo-
men folks on a pedestal." Ah, yes! So he is.

In many states to-day women are still standing on the
pedestal of the old English Common Law. Their property
belongs to their husbands; even the clothes they wear are
not their own in the eyes of the law. They cannot buy
and sell as single women can. Their wages belong to their
husbands and they cannot make a will.

We place our women on pedestals by opposing their
higher education, debarring them from the learned profes-
sions and relegating them to the kitchen and the nursery.
There are but nine states in the Union in which a married
mother has any right to the "custody, care and nurture" of
her own child. In the rest of the states mothers stand on a
pedestal and fathers have the legal right to manage the en-
tire life of their children, even to removing them wholly
from the "custody, care and nurture" of the mother.

In most of the states women are denied all participation
in the affairs of the government under which they live, and
they stand on a very lofty pedestal along with idiots, minors,
lunatics and criminals.

A pedestal is a good place for a statue, but a very poor
place for a live woman. Her place is on the common earth,
side by side with man, sharing his responsibilities, his privi-
leges and his rights. This is the sort of pedestal to which
women are slowly and surely climbing.

CROWDED OUT.
A number of correspondent's letters are necessarily crowded out this week to make room for more important matter.

WELL ATTENDED.
The mission services at St. Rose's Catholic church all last week were well attended, the size of the congregations increasing with every service. Besides the members of the church, many people of other denominations were in attendance, especially at the evening services, where all were interested in and benefited by the excellent lectures on religious topics which were delivered by Father Edwin Drury, of Knoxville. These lectures were delivered daily, only in the morning at 9 o'clock and one in the afternoon at 2 o'clock being in the form of instructive sermons. The services at these two hours and at 9 o'clock in the evening and also at first mass in the morning were as usual in the following visiting Catholic pastors: Father Jas. L. Whelan, of Stillton; Father Wm. L. Gable, of Harrodsburg; and Father Thomas McGinnis, of Brown's Valley.

W. F. SPOEHR DEAD.
Wm. F. Spoehr, traveling passenger and freight agent of the Henderson Route, died at Henderson Saturday night of heart trouble. He was forty-five years old and a popular and well known railroad man. He is survived by a wife and four children. He was a member of the Henderson Lodge of Elks. The remains were taken to Louisville for interment Monday morning, under an escort of Henderson Elks composed of the following: H. W. Herndon, Harry Peters, Dr. Elias Graham, James Rash, Will Weaver, Arthur Katerjohn, Geo. Atkins, Gas Starr, W. E. Chambers, of the Henderson Route office at Louisville, was also a member of the escort.

MR. SULZER IN CITY.

BUILDING NOTES.

M. J. Behen Gets Masonic Contract-Scarcity Of Lots Preventing Much Building.

The contract for the new brick building to be erected by Breckenridge Lodge F. & A. M., No. 133, has been let to M. J. Behen, the lowest bidder. The contract price is private.

The building will be erected on the lot between the Masonic Temple and F. T. Heyer's confectionery. It will be two stories and 23x30 ft., which are about the dimensions of the Masonic Temple. The two buildings will be about similar in construction as well as dimensions. Mr. Behen expects to begin work on the new building about October 1. When it is completed J. C. Nolte & Bro. will change their grocery department from the basement of the Masonic Temple to the first floor of the new building. The second floor will be used for office or lodge rooms.

There is a slight building boom here just now in the way of residences and small business houses, but the boom is not what it should be, in view of the long period of inactivity in building circles since the boom after the big fire of 1901. A prominent building contractor stated to a representative of the News Friday that there would be a larger building boom here this fall if it were not for the scarcity of desirable lots. He said that there are a number of local people who would build if they could find lots suit them.

HOLDING ITS OWN.

Kentucky Building, World's Fair, St. Louis, Sept. 20—Kentucky stock in the World's Fair cattle show is certainly holding its own against big odds, for the competition is admitted to be the warmest ever seen. Interest is centered in the exhibition of herds, and Kentucky entries took prizes in Jersey, Shorthorn, Hereford and Aberdeen Angus classes.

AWAY MANY YEARS.

Len Henning, who formerly resided at Davidson's Ferry, this county, has been visiting relatives in Breckenridge. Mr. Henning is general inspector of the Metropolitan Street Railway Co., Chicago, Ill., and has been living in the West about twenty years. The late C. S. Rhodes was Mr. Henning's brother-in-law.

STRIKE "GOOD STUFF."

The Four Metals Mining company, in which Cloverport and Hawesville men are interested, have been striking some "good stuff" in the way of zinc and lead deposits, while putting down a shaft at Goldsboro, Ill.

RETURNED FROM WEST.

After an absence of nine months in Oklahoma, C. D. Payne and family have returned to Harned, where Mr. Payne has purchased the farm of Oscar Snyder.

GO TO FUNERAL.

Mayor and Mrs. L. T. Reid left last Wednesday for Bucyrus, Ohio, to attend the funeral of Mr. J. S. Gornly, Jr., who was best man at their wedding and who died in New Mexico of consumption.

For Pain

Take a Dr. Miles' Anti-Pain Pill, and the Pain will disappear Like Magic.

Not by paralyzing the nerves and glands, like opium, morphine, cocaine, and other dangerous drugs, but by increasing the natural secretions.

This action is obtained as a result of modern discoveries in medicine, making it possible to relieve pain without bad after-effects.

You can safely depend upon Dr. Miles' Anti-Pain Pills to relieve any cure such pains as Neuralgia, Headache, Stomachache, Menstrual Pains, Rheumatism, Backache, Toothache, etc.

They will also, by their calming action on the nerves, almost instantly relieve such distressing feelings as Dizziness, Car-Sickness, Indigestion, Irritability, Sleeplessness, Nervousness, etc.

Not merely do they relieve, but they absolutely cure, because by persevering in their use, you do away with the cause.

Dr. Miles' Anti-Pain Pills are guaranteed that first package will benefit, or your money back. Never sold else. "I am thankful for the good Dr. Miles' Anti-Pain Pills have and am doing me." "I have had severe headache, caused by colds, until six years ago. I began taking Anti-Pain Pills, the only remedy I had ever used, and I am now free from it."—GEO. S. BARNES, CHATTANOOGA, TENN.

DO YOU NEED A MEDICINE?

IT COSTS YOU NOTHING TO INVESTIGATE.

There is no one who does not need a Liver Medicine occasionally. The symptoms of Liver Complaint are well known to every one, such as constipation, dyspepsia, loss of appetite, sleeplessness, headache, a tired feeling and many others of a similar nature.

Thousands die annually by not heeding the warnings of nature. Many acquire some chronic disease from which they never recover.

Many of these could be spared for years of usefulness, by keeping in the home some reliable remedy.

We believe that we can convince any fair-minded person that there is no better remedy for the Liver known, than Dr. Thacher's Liver and Blood Syrup.

The formula is known, consisting of: Buchu, Hydrangea, Mandrake, Yellow Dock, Dandelion, Sarsaparilla, Gentian, Senna and Iodine in solution.

You know just what you are taking. How many other formulas of a liver medicine are published? Ask your druggist about this. It is already prepared and can be taken immediately.

The strength is extracted in the most skillful manner, certainly superior to any powdered preparation known. (We also manufacture a Liver Medicine in tablet form, with which any druggist can supply you, but this like all other dry Liver Medications is inferior.)

Dr. Thacher's Liver and Blood Syrup is pleasant to take, does not lose its strength, and is not a dry form, and will keep in any climate.

Your doctor, however skillful, could prescribe nothing better for you. There is no opportunity for a doctor to make a mistake in writing a prescription, or a druggist clerk to make a mistake in compounding the same, (besides a doctor's bill and the cost of the medicine.) You can be absolutely sure of the proper proportion being in every dose.

Dr. Thacher's Liver and Blood Syrup has been used with the greatest confidence and success in the home for 52 years, and is prepared by a pharmacist of 25 years' experience, in a laboratory equipped with the most modern appliances for the most perfect safety.

If you do not understand your case, write today for a free bottle of "Dr. Thacher's Liver and Blood Syrup." We will send you one free of charge. We know what you try it at our expense. We know what it will do for you.

FOR SALE BY ALL DRUGGISTS.

The French Archives.

The archives so magnificently housed in the Hotel de Rohan form one of the most interesting sights of Paris. Here, bound in white calf, thousands of folios contain the history of France, dating from the Capet and Valois kings, all documents being classified under four heads—administrative, historic, legislative and financial. Among the most interesting of interest not shown to visitors without special permission is the table on which Robespierre, wounded, was placed in the history of France, the table of Thermidor and the inventory of Marie Antoinette's wardrobe, with patterns of her dresses, and also of Mme. Elizabeth's. Insignificant indeed would the collection appear beside that of a fashionable lady of today. In these historic premises, busy as bees, indefatigable researchers are continually at work.—Westminster Gazette.

Baltimore, Ireland.

Baltimore, in Maryland, gets its name from a small town in Ireland. The word Baltimore signifies the "village that grew up about the big house," and the derivation is plain. The title on the over covered ruins of the very remarkable big house that was once the stronghold of the O'Driscolls. It is situated upon an imposing height, and the ruins of numerous little dwellings that have sprung up and increased in the vicinity of its wrecked and deserted life. From the village of Baltimore enormous catches of mackerel are sent to America.—Exchange.

Read His Own Biens.

A distinguished English churchman tells this in M. A. P.: "The vicar of Swancombe was a very eccentric man. I remember—indeed, who could ever forget it?—that he once read out of his own banns of marriage with a lady who had not only not consented to marry him, but whom he had never asked to do so. He did this for two Sundays. On the third her father rose and formally objected to such a ridiculous proceeding."

Waiting His Turn.

"Well, Jack," said his chum after Jack had proposed to the most popular girl in the town, "is it all right?" "Well," said Jack ruefully, "I can hope—that's all."

"What did she say?" "She said she'd like my proposal with all the others and consider it when she got down to it."

His Lack of Tact.

Barnes—Here is a pretty good sort of fellow. Shedd—Yes, but he hasn't got any tact. At the restaurant the other day he asked me if I was fond of cats, and I was eating a rabbit out at the time! The idea of asking such a question at such a time as that!—Boston Transcript.

Emotionally Qualified.

Practical Aunt—Do you think you are qualified to become the wife of a poor man? Kindred—No, I don't think so; it's all settled. We are to live in a cottage, and I know how to make cottage pudding already.

The Servant Problem.

"What has been the greatest difficulty with you which you have had to contend with?" "The servant girl problem." "Preventing the good ones getting married."

Hard Seats.
It is not well for sedentary workers to sit on cushions. In man, owing chiefly to his erect carriage, there is a strong development of the muscles of the pelvis and the thighs, which almost completely clothe the strong bones. In the seated position, to obviate undue pressure, nature has provided a proper cushion over these bones. Hyrtl's saying is well known: "We sit on the fat of the seat as on a mattress."

In sitting on a smooth and hard surface the body rests upon three main points, but in sitting on a soft cushion pressure is imparted to the muscles and interferes with the circulation in all their parts.

Great attention has been paid to this matter in the construction of bicycle saddles and, speaking generally, with very beneficial results. Nothing can be said against a certain amount of coventry, if not too yielding, but the office stool, properly shaped, is an excellent seat.—Pearson's Weekly.

Food Aversions.

Cows' milk is said to be abhorred by the Abyssinians, who explain that milk is too much like big cats. The natives of the Sandwich Islands would not take caviar for a gift. Cheese in Mexico is simply cursed because of the lime juice which it contains, and even then it is patronized only by the Caucasian colonists. The half breeds accept it with hesitation, and a two ounce slice of limburger cheese stamped a tribe of mountain Indians. They resent it as a practical joke in questionable taste. But why the Koreans shudder at ice cream, as a traveler reports in the case, is less easy to explain. Perhaps they share the Japanese prejudice against dairy products or the Chinese predilection for superstitious tidings.

A Queer Italian Custom.

On Aug. 1 of every year the people of Val di Rosa, in Italy, gather in the great square, which is also a thrashing floor, and proceed to exorcise the devil for the benefit of their own dreams and the well being of their vineyards. The most intelligent man in the community is chosen master of ceremonies. A small fire balloon is made ready and to this the master of ceremonies solemnly attaches a puppet representing his Satanic majesty. Amid the shouts of the peasantry the balloon, with its attached puppet, is liberated. The good people believe that for the rest of the year the evil one will not disturb their dreams or damage the vintage.

Fungus Slippers.

Before the discovery of lucifer matches a large horn shaped fungus growing on the trunks of trees was used by the peasants of Europe for making amadou or tinder. The thick, brown, woody flesh of the same fungus, cut into slices and beaten until it assumed the appearance of leather, is used at the present day in Germany for the manufacture of chest protectors, caps, purses, bedroom slippers and various other articles.

One Exception.

"Taps, is the hand that rocks the cradle the one that rules the world?" "That's what I've heard." "Well, I know one that don't." "Who is it?" "Nurse." She wanted to go down town, and mamma told her she'd give her no recommendation.—Indianapolis Sentinel.

A Chronic Habit.

"No," said the man who had recently made his fortune pilgrimage to the mountains of the Alps, "I can't say that marriage is a failure."

"Of course not," rejoined his bachelor friend. "With you it is merely a habit."—Philadelphia Inquirer.

Get rid of those phlegms. Dr. Thacher's Liver and Blood Syrup will do it.

BILIOUSNESS AND CONSTIPATION CURED BY THEDFORD'S BLACK-DRAGHT

Because the liver is neglected people suffer with constipation, indigestion, headaches and fevers. Colds attack the lungs and contagious diseases hold of the system. It is a good idea to say that if the liver were always kept in proper working order, illness would be almost unknown.

Thedford's Black-Draught is so successful in curing such sickness because it is not a rival as a liver regulator. This great family medicine is not a strong and drastic drug, but a mild and laxative that cures constipation and may be taken by a child without possible harm.

The healthful action on the liver cures biliousness. It has an invigorating effect on the system. Because the liver and kidneys do not work regularly, the poisonous acids and waste from the bowels get back into the blood and violent contagion results.

The treatment with Thedford's Black-Draught removes the dangers which lurk in constipation, liver and kidney troubles, and will positively forestall the invasions of bright disease, for which disease in advanced stages there is no cure. Ask your druggist for 25c. package of Thedford's Black-Draught.

The Confederate Cent.
There was only one complete die made for the purpose of coining money by the Confederate States of America—that for a one cent piece, which was made by Lovett, the Philadelphia engraver, in 1862. After he had finished the dies Mr. Lovett found that he was unable to send them to the persons who had ordered the work done, and, becoming alarmed, he "struck off" twelve nickel cents and then carefully selected both coins and dies. For twelve long years the engraver kept his secret, which was finally revealed through an accident. One day in 1873 he went to the hiding place of the rare coins and selected one for a pocket piece and within the month sent it out unknowingly to Hazletine, the Philadelphia restaurant keeper. This man, knowing the piece to be Lovett's work, sent it to J. C. Randall, the coin collector. After some little trouble Hazletine and Randall succeeded in buying the die, and from it they struck five copper pieces, twelve in silver and seven in gold. This accomplished, they mutilated the die, and coin dealers now hold Confederate cents at a very high figure.

England's Uneducated Children.

In every big town the children of the slums habitually go to school improperly fed. Many of them are not only improperly fed, but the food they get is far from being of good quality. In the hard winter season, when the buildings there are idle, many again go to school either with no food at all or having only stayed their hunger in the morning with a crust of dry bread. In sharp, frosty weather it is a common experience for teachers in the elementary schools of the poorer parts of our great towns—I have often seen it—to find children suddenly seized with vomiting. This is not so much caused by the fact that the stomach is upset as that it has revolted against the effect of the cold upon its empty condition. And not only is this state of things true of the poorer parts of the big towns, it is also true of many of the agricultural villages. Let a visitor to a village elementary school look closely at the children. They are in hand and they look very pale. They need more nourishing food. A breakfast of "teakettle broth," a bit of bread and treacle and some abominable poor tea for the forenoon, these meals daily.—Dr. T. J. McNamara, M. P., in Nineteenth Century.

Athletes and Consumption.

There must be no exercise as exercise for the consumptive patient. If you are able and feel like it, amuse yourself, but don't take exercise to build up the system. I know, I know, I have heard those stories about men given up to die who began work in a gymnasium and by violent exercise cured their consumption. When the lung tissue is attacked by tuberculosis it heals, if it heals at all, by fibrous scar material filling in the cavity. No lung tissue formed after it is replaced what has been lost, and this scar material is useless for breathing. Suppose you had a deep cut in your hand and you kept working that hand violently, how long do you think it would take the cut to heal? When exercise is taken or you "expand the lungs" you have to work the lung tissue just as you work your hand, and if it is wounded there will be a much larger proportion of scar material useless for breathing when it does get well.—Everybody's Magazine.

An Enormous Sundial.

A curious phenomenon is reported in the columns of a geographical publication. It is a large promontory in the Aegean sea, known as Hayon Horos, which extends 3000 feet above the level of the water. As the sun swings around the shadow of the mountain touches one by one a circle of islands separated by regular intervals, which act as hour marks. It is the largest sundial in the world.

Some Food For Him.

Young Sorreltop—Then you utterly cut me out, Ezenaldi? Miss Ezenaldi—No. You are the best friend of the old and the young—Why, no, Sylvester. But—but it would be so silly for a girl to say yes the first time. If you and the young man you like might ask me again some day, you know.—Chicago Tribune.

Cut out at Bargain Rates.

Percy—Young Rapidgait had hard luck. He was disinherited recently. Harold—Cut off without a dollar, eh? Percy—No. His mother did the disinheriting. He was cut off with 98 cents.—Pittsburg Post.

All the More Annoying.

"But his statement about you is a tissue of malicious lies, is it not?"

"No," it's a very substantial combination of serious facts and tissue of malicious truth."—Philadelphia Ledger.

GENERAL KUROKI, THE "LEE OF JAPAN."

General Kuroki's admirers months ago dubbed him the "Lee of Japan," for, while he is a great fighter, his forte appears to be strategy. The series of maneuvers by which he forced Kuroki's flank inch by inch back upon itself until it was no longer a wing of the army and his strategy in making a feint to the south of Liaoyang while he detached a considerable portion of his army to cross the river stamp him as a genuine military genius. The disastrous effects of these maneuvers finally revealed the elaborate thought out plan of campaign demonstrate that Kuroki's premises were sound. The illustration shows him as he appears in the field during an engagement.

THE FAD FOR BROWN.
The color brown has come to town, they are wearing it up and wearing it down.

There never was a greater fad for a color than that for brown this season. Merchants and fashion makers say that all colors are good style, and that is so, but if there is one color above another that everybody is wearing, it is brown. London brown, onion brown, tobacco brown, Havana brown, light brown, dark brown, just any color of brown. Men's hats and women's hats; men's gloves and women's gloves; men's suits and women's suits; men's shoes and women's shoes; men's ties and women's ties; in fact, every article of outer wear for old, young, men or women, any one and every one. If there is any doubt about what color to get in a fall suit, one may be sure of being in style right up to the minute if some shade of brown is chosen.

NATURE'S DEFENSE.
How are children so often able without injury to swallow such sharp things as pins, needles, tacks and bits of glass? The secret, as disclosed by Dr. Albert Exner of Vienna, lies in the fact that, when a pointed or sharp-edged body comes into contact with the lining of the stomach or intestine the part touched contracts and puckers so as to thicken itself in that place. At the same time it withdraws itself in such a manner as to form a little pocket, and gradually twists the object around so as to turn the edge or point away from the thing along.—New York Tribune.

WINS AFTER 7 YEARS.

Springfield, Ohio, Sept. 22.—Because his offer of marriage was refused seven years ago by Miss Anna Orr, who had vowed to wed only a minister, Robert Wilson sold his grocery, went through college and was graduated from McCormick seminary in Chicago. Now he is the pastor of a Presbyterian church in Michigan and today they were married at the bride's home in Cedarville, near here.

FREE FOR MINISTERS.

St. Louis, Mo., Sept. 22.—The Louisiana Purchase Exposition Company has adopted a resolution providing for free admission to the World's Fair for all clergymen presenting their credentials during November.

It was also decided to admit school children in bodies numbering not less than twenty-five, when accompanied by teachers, at an admission of ten cents a pupil. The rate is good any day except Saturday.

SUIT POSTPONED.

Winchester, Ky., Sept. 22.—The \$100,000 damage suit against Judge James Hargis, of Breathitt county, this state, Senator Alex. Hargis, Sheriff Ed Callahan and Judge R. F. French, which was instituted by Mrs. J. B. Marcum, charging indignation for the assassination of her husband, was called Friday, and on motion of the defense it was postponed until the December term of court.

LONG LETTER

Of Fairbanks Accepting Nomination-Taggart Satisfied-Other Political News.

Indianapolis, Ind., Sept. 21.—Senator Fairbanks' letter of acceptance was made public tonight. In it he says the Republican platform receives his heartiest approval, but declares that the acts of the party mean more and make the platform mean more. He praises at length the acts of the present and the preceding Republican administration. He challenges the statement in the Democratic national platform which says, "protection is the robbery of the many to enrich the few." He argues against this statement at length, giving the usual Republican protection arguments. He dwells upon capital and labor and seeks to show that all Republican legislation has been for the good of labor. He discusses the money question also. His letter is very long.

Taggart Satisfied.
New York, Sept. 21.—Chairman Taggart, of the Democratic National Committee, who returned from the West last night, said to-day that he is perfectly satisfied with the conditions as he found them there. "I have not seen Indiana in better shape since 1892 than I found it last week," he said. "Neither the Democrats nor the Republicans have become very enthusiastic in Indiana up to the present time. Both sides have been organizing, and I feel very much gratified at the condition of the Democratic organization there. Last Friday in Indiana I met the prominent Democratic leaders of the State, including every county chairman."

Want Primaries Only.
Albany, N. Y., Sept. 21.—The next legislature will probably be called upon to adopt a bill to have all nominations for all parties made by primary elections and the expenses paid by the state or counties. L. H. Carter, of Lawrenceburg, former representative, who was in the city today, discussed the proposed bill and said he would probably offer it.

Nominate Herrick.
Saratoga, N. Y., Sept. 21.—D. Cady Herrick, of Albany, was today nominated for governor of New York by the Democrats in convention. His nomination was unanimous and was amid the greatest enthusiasm. A ringing platform was adopted by the convention.

DO YOU GET UP WITH A LAME BACK?

Kidney Trouble Makes You Miserable.

Almost everybody who reads the newspapers is sure to know of the wonderful cures made by Dr. Kilmor's Swamp-Root, the great kidney, liver and bladder remedy. It is the great medicinal triumph of the nineteenth century; discovered after years of scientific research by Dr. Kilmor, the eminent kidney and bladder specialist, and is wonderfully successful in promptly curing back kidney, bladder, uric acid troubles and Bright's Disease, which is the worst form of kidney trouble.

Dr. Kilmor's Swamp-Root is not recommended for everything but if you have kidney, liver or bladder trouble it will be found just the remedy you need. It has been tested in so many ways, in hospital work, in private practice, among the helpless too poor to purchase relief and has proved so successful in every case that a special arrangement has been made by which all readers of this paper who have not already taken it, may have a sample bottle sent free by mail, also a book telling more about Swamp-Root and how to get it. If you have kidney, bladder trouble, when writing mention reading this generous offer in this paper and send your address to Dr. Kilmor & Co., 111 N. 3rd St., New York, N. Y. The regular fifty cent bottle of Swamp-Root, dollar sizes are sold by all good druggists. Don't make any mistake but remember the name, Swamp-Root, Dr. Kilmor's Swamp-Root, and the address, Birmingham, N. Y., on every bottle.

Get the Most Out of Your Food

You don't and can't if your stomach is weak. A weak stomach does not digest all that is ordinarily taken into it. It gets tired easily, and what it fails to digest is wasted. Among the signs of a weak stomach are indigestion after eating, flat, nervous headache, and disagreeable belching. "I have taken Hood's Sarsaparilla at different times for stomach troubles, and a run down condition of the system, and have been greatly benefited by its use. I would not be without it in my family. I am troubled especially in summer with weak stomach and nausea and find Hood's Sarsaparilla invaluable." E. B. HICKMAN, W. Chester, Pa.

TO BE TELEPHONED.
The weather forecast for Kentucky will hereafter be transmitted by telephone throughout the State of Kentucky and Southern Indiana as soon as it is received each morning. Instead of by telegraph, as formerly. Major H. B. Hersey, who is in charge of the Louisville office of the Weather Bureau, has arranged for arrangements with the Home Telephone Company whereby the company is to send the forecast to every exchange in Kentucky and Southern Indiana. The Home Company has thirty-five exchanges in the territory mentioned and an aggregate of 30,411 telephone subscribers. The forecast is to be sent from the Louisville office as soon as received at every exchange, and the operators at the exchanges are to hold it for transmission on application of the subscribers. Within less than an hour after the forecast is received by the Weather Bureau it will be in the hands of the telephone operators and ready for transmission to the subscribers.

What Is Life?
In the last analysis nobody knows, but we do know that it is under stress and strain. Life is a struggle, a slightly painful result. Irregular living means derangement of the organs, resulting in Constipation, Headache or Liver trouble. Dr. King's New Life Pills quickly relieve this. It's gentle, yet thorough. Only 25c at Short & Haynes Drug Store.

THE RESULTS OF INOCULATING FIELDS.
The same bacteria that increase the harvest of beans or clover or alfalfa tend to enable the plants to leave many times more nitrogen in the soil than they would have done if uninoculated; in other words, they make the soil many times more fertile, so that the crop of cotton, corn, wheat or corn or potatoes planted next year is many times larger. Thus the rotating crop the year following inoculation derives an equal benefit from the inoculation. For instance, a crop of crimson clover, not inoculated, added to one acre of land 4.8 pounds of nitrogen; a crop of crimson clover, inoculated, added to one acre of precisely similar land 143.7 pounds of nitrogen, an increase of 33% times; a crop of crimson hairy vetch added to one acre increases the amount of nitrogen to a crop of uninoculated hairy vetch. From Gilbert H. Grosvenor's "Inoculating the Ground," in the October Century.

A Power For Good.
The pills that are potent in their action and pleasant in effect are Dr. King's Little Early Risers. W. S. Philpot, of Albany, Ga., says: "During a bilious attack I took one. EN ROUTE TO FAIR.

The First Kentucky regiment of Infantry, which was recently re-organized at Louisville, passed over the Henderson Route last Wednesday night, en route to the St. Louis fair, where they will remain until Thursday. The regiment was clad in the uniform prescribed for heavy marching order, with full khaki uniforms, rifles, canteens, blankets, tents, haversacks and canteens.

A train consisting of fourteen coaches and two engines was necessary to transport the soldiers. The train arrived here about 11 o'clock Wednesday night. **DROVE 60,000 MILES.**
T. Seymour Smith, of Franklin, Ky., is probably the only man in the world who can boast of having driven the same team of horses 60,000 miles. Mr. Smith was in business for seven years, and was required to drive over the entire United States. He figures that every day he worked he drove the team twenty miles, making a total in seven years of 60,000 miles. He started at Boston and drove through New England, the Middle and Southern States and the West. When he completed his seven years' trip he got \$308 for the team, which, he says, was better than the day he started.—Nashville American.

IROQUOIS RE OPENED.
The Iroquois Theatre, at Chicago, where nearly 600 persons were burned to death last December, was re-opened last week as a vaudeville playhouse. The theatre has been refitted at a cost of nearly \$100,000 and constructed so as to meet every requirement of the law.
A thrilling and dramatic scene occurred when the first curtain dropped. It stuck at precisely the same spot it did when the holocaust occurred less than a year ago. The choros girls became frightened and ran, while two men came out and adjusted the curtain. Every number was received in silence after that and the audience was glad when the show was over at 11:30 o'clock.

LOUISVILLE DAY.

The revival of plans for the celebration of Louisville day at the World's Fair, September 27, was undertaken yesterday afternoon by the Commercial Club, and the indications are that a representative attendance of persons from this city will take part in the program, which will be arranged later. The Mayor has consented to be the head of the celebration, and it is the purpose to have as large a crowd to go from Louisville as can be interested without special rates from the railroads. It is probable that several hundred persons from Louisville will be in St. Louis on September 27, and with the recruits which make the trip with that end in view a fine showing is expected. The First Kentucky regiment will be in St. Louis at the time, and will contribute much to the festivities. A band will be placed in the Kentucky building to remain throughout the day, and a Reception Committee also will be appointed.—Wednesday's Louisville Times.

DEATH LIST GROWING

Number of Killed in Southern Railroad Wreck May Exceed Seventy.

SIXTY-TWO ARE REPORTED DEAD.

Knoxville, Tenn., Sept. 26.—The death list as a result of the fearful wreck on the Southern railway near Newmarket Saturday has grown to 62, and it will probably exceed 70 before Tuesday, as many of the injured are in a serious condition and more deaths will occur at the hospitals. Sunday there were six deaths at that institution, the last one occurring at 8 o'clock p. m., when M. P. Gant, a prominent North Carolinian, residing at Shelby, N. C., passed away. Others who died at the hospital were the two colored women, two little girls and Nep Miller, colored, of Johnson City. To the appended corrected list of dead there must be added an unknown infant found at the scene of the wreck and two other unidentified bodies. The list of dead is as follows: W. A. Gahrath, Knoxville; Mrs. W. A. Gahrath, Knoxville; W. T. Ellis, Greensboro, N. C.; Ralph Munsell, Knoxville; Miss Inez Russell, Knoxville; Clyde Russell, Knoxville; W. A. ROUSING MEETING AT GUTHRIE.

Guthrie, Ky., Sept. 24.—Todd county never before witnessed such an outpouring of the yeomanry as that which gathered to-day and adopted the constitution of the Dark District Tobacco Planters' Association.

Resolutions were unanimously adopted calling upon the Judges of the Federal courts in every district of Tennessee and Kentucky to charge their respective grand juries to investigate the existence of tobacco trusts in violation of the anti-trust law of 1890.

Col. F. A. Champion moved that a committee of one man from each county be appointed to report a suitable constitution for the association, whereby it may protect the value of the tobacco. The committee reported that the name of the association shall be the Dark District Tobacco Planters' Association. Its object shall be to assist each member in grading and selling his tobacco. The officers provided for are president, vice-president and secretary-treasurer. The board shall consist of one member from each district of each county represented in the association, who shall be elected at an annual meeting to be held Sept. 24 of each year. The executive committee shall consist of one person from each of the respective counties in the dark district. The duties of the executive committee are numerous and cover all the points of marketing the product. None of the provisions of the constitution becomes operative until 70 per cent of the crop has been secured. The instrument was unanimously adopted.

At the afternoon session the committee appointed to report on constitution was instructed to urge action in the Federal court against tobacco corporations. Col. Champion introduced resolutions authorizing the appointment of seven attorneys to draft without pay a charter for the association.

The election of officers resulted as follows: Chas. H. Fort, president; F. G. Ewing, chairman of the Executive Committee; Chas. E. Barker, vice-president, and Frank Walton, secretary-treasurer. In a general discussion it was decided that the members of the Executive Committee shall be elected October 8. Adjournment then followed.

A PASTOR'S WIFE CURED OF PELVIC CATARRH

She Suffered for Years and Felt Her Case Was Hopeless—Cured by Pe-ru-na.

MRS. ANNA B. FLEHARTY, recent Superintendent of the W. C. T. U. headquarters, at Galesburg, Ill., was for ten years one of the leading women there. Her husband, when living, was first President of the Nebraska Wesleyan University, at Lincoln, Neb.

In a letter written from 401 Sixty-seventh street, W., Chicago, Ill., Mrs. Fleharty says the following in regard to Peru-na:

"Having lived a very active life as wife and working partner of a busy minister, my health failed me a few years ago. I lost my husband about the same time and gradually I seemed to lose health and spirit. My daughter is a confirmed invalid, and we both felt great need of an invigorator.

"One of my neighbors advised me to try Peru-na. A bottle was immediately secured and a great change took place in my daughter's as well as in my own health. Our appetites improved very greatly, the digestion seemed much helped, and restful sleep soon improved us, so that we seemed like new women."

"I would not be without Peru-na for ten times its cost."—Mrs. Anna B. Fleharty.

What used to be called female diseases by the medical profession is now called pelvic catarrh. It has been found by experience that catarrhal diseases of the pelvic organs are the cause of most cases of female diseases.

Dr. Hartman was among the first of American gynecologists to make this discovery. For forty years he has been treating diseases peculiar to women, and long ago he reached the conclusion that the cause of the most catarrhal affection of these organs would not be subject to female disease. He therefore began using Peru-na for these cases and found it so admirably adapted to their permanent cure that Peru-na has now become the most famous remedy for female diseases ever known. Everywhere the women are using it and praising it. Peru-na is not a palliative simply; it cures by removing the cause of female disease.

Dr. Hartman has probably cured more women of female ailments than any other living physician. He makes these

cures simply by using and recommending Peru-na.

Mrs. Esther M. Milner, DeGraff, Ohio, writes:

"I was a terrible sufferer from female weakness and had the headache continuously. I was not able to do my housework for myself and husband. I wrote you and described my condition as near as possible. You recommended Peru-na. I took four bottles and was completely cured. I think Peru-na a wonderful medicine."—Mrs. Esther M. Milner.

Congressman Thad. M. Mahon, of Chambersburg, Pa., writes:

"I take pleasure in commending your Peru-na as a substantial tonic and a good catarrh remedy."—T. M. Mahon.

If you do not receive prompt and satisfactory results from the use of Peru-na, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.
